INTRODUCTION
AND
GENERAL INDEX

HILL DIRECTORY COMPANY, publishers of Southeastern Directories, present to subscribers and the general public, this, the 1962 edition of the Virginia Beach City Directory, which also includes the Rural Route Residents.

This is the first Hill Directory of Virginia Beach, and is completely standardized according to the policies and practices of the Association of North American Directory Publishers.

Confidence in the growth of Virginia Beach's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Virginia Beach to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Virginia Beach Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:--

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section, which embraces a list of the names and addresses of all business and professional concerns of the community, arranged in alphabetical order under appropriate headings--a catalog of all the activities of the community. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Virginia Beach, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Virginia Beach, and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Virginia Beach and vicinity.

There are more than 1,000 of these Directory Libraries, installed and maintained in cities and towns throughout the U. S., Canada and Puerto Rico through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which Hill Directory Company is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

HILL DIRECTORY COMPANY,
Publishers.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

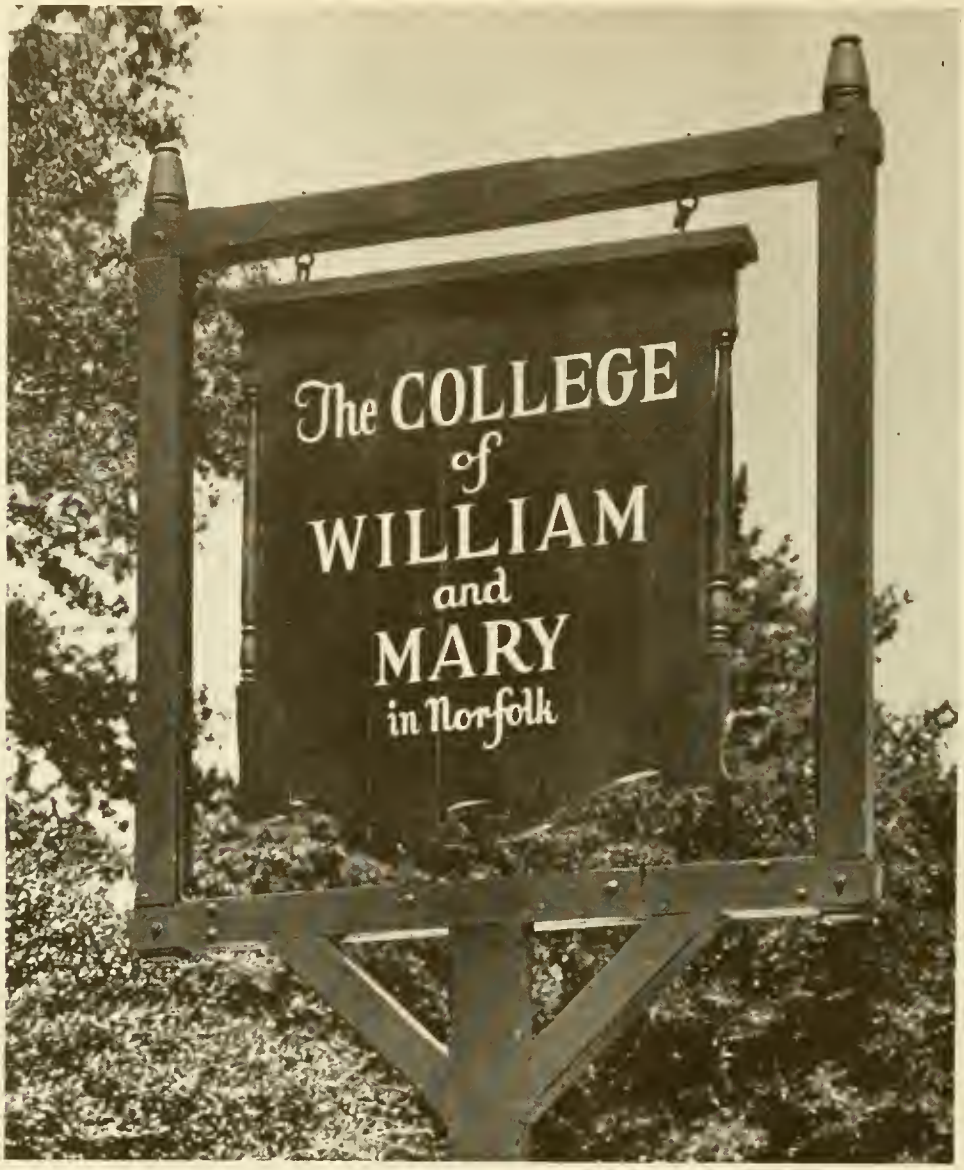
Virginia Beach is a Vacation Favorite with Families.

VIRGINIA BEACH

(Courtesy Virginia Beach Chamber of Commerce)



Practically midpoint the Atlantic Seaboard is the famed resort of Virginia Beach. Incorporated in 1906, this popular seashore playground presents a strange contrast to the days when trains brought seaside vacationers, black umbrellas dotted the beach and a wooden boardwalk ran along the beach in front of summer cottages. Today, the oceanfront strip is gay with color, with luxurious motels and modernized traditional hotels--a 28 block concrete boardwalk presents a colorful spectacle with its pastel miniature trains, its bikers and strollers, bright hued umbrellas stretch like a line of colored periods down the wide sand beach - scant bathing suits have replaced the bath dress with its below-the-knee length and black lisle hose.

Every year spectacular new accommodations testify to the growth and popularity of a 56 year old beach that has undergone a transformation.

A mere 2.2 square miles in area, Virginia Beach does not assume its realistic proportions until its immediately adjacent residential areas are included. However, the year-round population within its corporate limits in 1960 was 8,006. This figure swelling to around 50,000 during the summer months. Effective buying income in 1960 was $16,753,000, and retail sales was $27,913,000. There are two schools within the city limits and a number of private schools. Churches of various denominations and many cultural organizations including The Virginia Beach Art Association, The Virginia Beach Council of Garden Clubs and Virginia Beach Little Theater. There is one hospital, all municipal services, a rescue squad, one broadcast station and a weekly newspaper.

Virginia Beach anticipates phenomenal growth in tourism with the upcoming Princess Anne County merger.

On January 1, 1963, the merger of Virginia Beach and Princess Anne County will have become effective. The merged area will be known as "The City of Virginia Beach" and will encompass 312.22 square miles with a population in excess of 100,000.

A four year college serving 3,000 day and night students in Tidewater.

The Chesapeake Bay Bridge Tunnel when completed will have its southern terminus in the new city, putting The City of Virginia Beach 70 miles closer to eastern metropolitan areas and on the fastest north-south route.

The new City of Virginia Beach will be significant in many ways. Its historic landmarks include The Memorial Cross, marking the landing spot of the first permanent English Colonists; the Adams Thoroughgood House (cerca 1636) reputedly one of the oldest English houses of brick construction in America; The Princess Anne Court House, and the Cape Henry Lighthouse erected in 1791.

Noted for its picturesque beauty of oceanfront, bays, lakes, farmland, pasture land and residential areas, this new city is a meeting place of the horticulture of the north and the south. It is noted for its profusion of azaleas in the spring, petunias and scotch broom in the summer and crepe myrtle in the early fall. Seashore State Park with its 3,000 acres of unspoiled beauty is nationally recognized by botanists for its wide diversity of horticulture and specifically for its wild flowers.

Notable attractions of the area behind a 28-mile oceanfront are extensive: Back Bay famed as a fisherman's and sportsman's paradise; The Alan B. Shepard Convention Center; the largest jet Air Base outside of the west coast; Lynnhaven Inlet of oyster fame.

Based on the "Survey of Buying Power" estimates for 1960, the New City of Virginia Beach will boast a combined year-round population in excess of 100,000. Combined effective buying income of approximately $169,233,000, combined retail sales of approximately $75,621,000. There will be 38 miles of ocean and shoreline on Chesapeake Bay and the Atlantic Ocean, 252.75 miles of shoreline on rivers, bays and lakes.

In May 1958, the first geodesic aluminum domed convention center was completed at Virginia Beach. With the advent of America's initial conquest of space, the Convention Center was named "The Alan B. Shepard Convention Center" in honor of our first astronaut and Virginia Beach's resident.

This spectacular building serves both as an auditorium and municipal convention hall, accommodating 2,500 in its main auditorium and groups to 200 in flexible conference rooms. There is parking for 400 cars on its site and a direct drive in for its 11,000 feet of exhibit space.

Out of Sight--Out of Mind

☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

☆

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

HEATING AIR CONDITIONING

So many local merchants want air conditioning, we set out to bring them the finest money can buy. We are honored to announce our appointment as franchised dealers for Carrier Air Conditioning — backed by skill and experience of the firm that founded the air conditioning industry.

We now offer a complete line of Carrier Store Weathermakers — the most compact and efficient self-contained unit ever built to clean and cool air, dehumidify it and circulate it without draft. We also offer expert advice on installed air conditioning for larger spaces.

If you plan to air condition your business — now or later — it will pay you to talk it over now. Just phone.

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. ★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

CAUTION....

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

Do your employers furnish you with the latest edition of the City Directory

?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

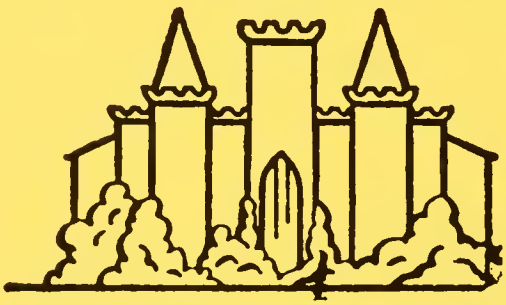
Do your employers furnish you with the latest edition of the City Directory

?



You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight! - Out of Mind! - Out of Business!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*
